A few words  
About JBL

---

Part of the Service Metals Group.

# S E R V I C E M E T A L S

---

The largest independent stockist of aluminium sheet metal  
for the Road Transport Industry.

## About JBL

JB components Ltd t/a JBL, are part of the successful Service Metals group, which was established in 1976. The Group has grown to become Europe's leading independent supplier of aluminum extrusion and sheet for the road transport associated engineering industries.

Alongside these core products the group also carry a range of steel sections, timber flooring, dry freight & composite panels and a selection of commercial vehicle body fittings and lighting products, in short everything required for the commercial vehicle bodybuilder.

The Fabrication facilities within the group cover a wide range of products from the manufacture of commercial vehicle roofs, roller shutters, aluminum and steel rear frames, flush door systems and a variety of other fabrications to suit custom requirements.

A major growth area within the group is the supply and manufacture of kit body systems from 3.5 ton up to 25 ton, our friendly and knowledgeable staff aim to offer excellent customer support and competitive pricing. Most of our people have many years experience in the industry and are always happy to offer help and advice if required.

# Services

Here at JB Components, we don't just sell products, we offer a variety of services which you may be interested in.

## FABRICATION

We offer first class quality products at affordable prices. Bespoke items are available, please contact us with your requirements.

## BODY KITS

We sell complete body kits from the chassis upwards. We aim to take the guesswork out of building 3.5T bodies by supplying pre-configured kits.

## WELDING

We offer a speedy and professional welding service, from mig and tig welding.

## SPECIALIST EXTRUSIONS

We provide a complete solution to all of your extruded aluminium needs. We help with prototyping, provision of samples, production, fabrication, packaging, holding and distributing your product/s.

We are equally confident designing a new bespoke extrusion as we are re-quoting your existing line of extrusions.

## GRP LAMINATE

We stock a range of Brianza GRP in sheet and roll form and we also stock GRP faced plywood and light-weight 3 element panels.

## ROAD TRANSPORT PRODUCTS

We offer a huge variety of road transport goods. So if you can't find what you're looking for feel free to contact us and we'll do our best to source it.

## ROLLER SHUTTERS & REAR FRAMES

Our fabrication department offers aluminium and galvanised rear frames to compliment the groups roller shutter and flush door products.

## Brianza Plastica GRP Laminate

### Laminate Rolls

As sole distributor of Brianza Plastica products in the UK & Ireland we offer fibre-glass laminates in sheet and roll form to the vehicle bodybuilding sector. We stock a large range of both roll and sheet materials for the panel manufacturing and engineering industries.

The laminate is suitable for the production of insulating panels for recreational vehicles and temperature controlled vehicles.

### Elycold

Elycold comes from the combination of polyester resin and glass fibre; which provides manufacturers with excellent long-term technical resistance, UV protection and total impermeability and insulation protection inside the panel.

The stability of the laminates is guaranteed by the use of fiberglass chipped strand mat, which can be combined with woven roving reinforcement to further improve the mechanical features of the laminate.
